L3 Award in Adapting Exercise for Independently Active, Older People

Exercise Professional Qualification
 for instructors wanting to work with
 Independently Active, Older Adults ©

✓ Introduction

The LLT Older Adult training course delivers the skills, knowledge and competence Required of the exercise leader in order to work in an unsupervised capacity with independently active, older people. The course covers the considerations for safe, effective and evidence-based exercise and how to plan, adapt and deliver exercise programmes for the general older adult populations (apparently healthy, community dwelling, older people). It covers a functional model approach for adapting exercises to meet the needs of older people and provides an added value, 'fit for purpose' qualification for learners and services. This qualification is delivered by LLT, kept constantly updated by evidence, and is available NOW.

✓ Who is the Older Adult course for?

The Older Adult course is designed for qualified exercise professionals and requires prior completion of one of the following qualifications *:

- Level 2 Certificate in Fitness Instructing (gym-based exercise, exercise to music or water-based exercise)
- Level 2 Certificate in Fitness Walking or any other qualification within the physical activity adviser category on REPs
- Level 3 Diploma in Teaching Yoga, Level 3 Diploma in Teaching Pilates.

The Older Adult course, along with L3 Exercise Referral, is a necessary pre-requisite for L4 Specialist Courses such as the Postural Stability Instructor*.

✓ Accredited and Endorsed

The Older Adult is endorsed by The Register of Professionals (20 REPs CPD points). It is also aligned with International Best Practice Guidance for Physical Activity Instruction with Older Adults. Successful candidates receive an LLT and a CYQ Certificate.

The 2 day Older Adult course is designed for qualified exercise professionals wishing to deliver community-based exercise to the general older population, i.e. those who are relatively well and independent in all activities of daily living. It includes the physiology of ageing, adapting exercise to meet the needs of independently active, older people, as well as practical exercise workshops considering gym equipment, smaller equipment (such as resistance bands) and group exercise to music. Additional resources are available on the LLT Student Pages during and following the course.

✓ Older Adult Settings

- Group exercise in community halls/centres
- Gym programmes or group exercise in leisure centres/health clubs
- GP Referral programmes (if L3 GP Referral qualification also held)
- Home Based Programmes
- Personal Training

✓ Older Adult Evidence

Older Adult allows existing group sessions (pilates, yoga, exercise to music) to be inclusive. This course is based on a variety of systematic reviews of evidence on the benefits and types of exercise appropriate for independently active older adults. It is underpinned by the Chief Medical Officer's Guidelines for Physical Activity and Health for older people (2011).

✓ Course Content

The learner will;

- Understand the ageing process and ageing demographics
- Know the effects of ageing and inactivity and understand the benefits of physical activity and exercise, as well as the special considerations that must be taken into account when programming and delivering exercise for independently active, older people.
- Understand how to support and motivate the independently active, older adult in exercise and understand how to promote exercise for independently active, older people.
